

## IELTS WRITING TASK 2

**Q-By punishing murderers with the death penalty, society is also guilty of murder. Therefore, life in prison is a better punishment for murderers.**

**-To what extent do you agree or disagree with this statement?**

**-Give reasons for your answer and include any relevant examples from your knowledge or experience.**

### **Model answer: (Disagree)**

I am a staunch supporter of the death penalty for murderers. Life in today's society is extremely violent. Many mentally ill people commit crimes, and almost nothing can keep them from doing so. We interviewed detained criminals who stated, "I was going to murder him, but I knew I'd face the death penalty if I did. So as a result, I left him there." The death penalty saves lives and has a positive impact on society.

It is not society's fault if a criminal murders someone and then receives the death penalty. Everyone is familiar with the death penalty as a form of punishment for murder. As a result, the murderer kills himself while murdering his victim. As a result, the murderer has chosen to die.

It is critical to remember that the death penalty is only used for the most heinous crimes. For example, a woman shot a police officer while attempting to flee the jail. She was already a convicted felon when she committed murder, and she deserves to be executed.

People must accept accountability for their actions. The death penalty is one way for society to help people understand/realize the consequences of their actions.
