

IELTS SPEAKING PART 1

Do you like to watch sports on TV?

Not! I wouldn't call it a favorite. I become extremely bored and disinterested. I usually avoid watching sports on TV unless it's a big event like the World Cup or the Super Bowl. In that case, I prefer the social event to the game itself.

2. Do you play any sports?

Not any longer. I used to be an avid swimmer as a child, but I stopped after high school because it was too time-consuming. So instead, I enjoy going to the gym, running around my neighborhood lake, and going on mountain hikes. I'm not sure if these are sports, but I enjoy being physically active.

3 Which is the most famous sport in your country?

Of course, soccer! That would be number one because soccer is the most popular sport globally. When our team wins a game, people go crazy; they even drive around waving flags and closing down streets! Aside from that, many people enjoy tennis and martial arts.

4Who is your favorite sports star?

I'm not a big sports fan, but I don't have a favorite team. Cristiano Ronaldo, on the other hand, I might like. Despite knowing nothing about him or his athletic abilities, I believe I've always been drawn to him because of his appearance.

5 What kinds of sports would you like to try in the future?

I'm intrigued by soccer. I think it can connect people and is good cardiovascular and coordination activity. I wish I had gotten into it as a child. I think it would be interesting to join a league in my city.
